Comments:

1. Now is not the time. Plastic bags offer a sanitary way to carry goods 2. Plastic bags are not single use for some of us. Every one of mine get reused at least once as trash bags or cat litter bags. Without the plastic bags I will need to purchase bags that are usually heavier weight and use more plastic not less 3. Recycling is better than a ban. These bags are clean and typically a single type of plastic. Ideal for recycling. So do that!
